

KOLLA PUNEETH SAI

Data Analyst

9985293863 | puneeths602@gmail.com | Hyderabad, India | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst fresher with hands-on experience in Python, SQL, Power BI, and Machine Learning. Delivered end-to-end projects including Swiggy Sales Analysis and an ML-based Student Performance Predictor. Skilled in data cleaning, EDA, KPI reporting, predictive modeling, and interactive dashboard design. Passionate about converting raw data into actionable business insights.

TECHNICAL SKILLS

Languages: Python, SQL

Libraries: Pandas, NumPy, Scikit-learn

Machine Learning: Logistic Regression, Random Forest, Machine Learning Basics

Visualization: Power BI

Database: MySQL — schema design, indexing, query optimization

Analytics: Data Cleaning, EDA, KPI Analysis, Excel (Pivot Tables, VLOOKUP)

Version Control: Git, GitHub

PROJECTS

Swiggy Sales Analysis

Mar 2025 – Jun 2025

GitHub: github.com/puneeths602-cpu/Swiggy-Sales-Analysis | Python · SQL · Power BI

- Processed and analyzed 10,000+ sales records to evaluate business performance metrics.
- Designed optimized SQL queries for data extraction, filtering, and KPI calculation.
- Developed 5+ dynamic Power BI dashboards with slicers, charts, and drill-through analysis.
- Identified top-performing products and peak sales periods using trend analysis.
- Improved data reporting efficiency by 40% through structured data modeling.

Predictive Analysis of Student Performance in Online Learning

Jan 2026 – May 2026

GitHub: github.com/puneeths602-cpu/Predictive-Analysis-of-Student-Performance-in-Online-Learning | Python · Scikit-learn · SQL · Power BI

- Built ML classification models (Logistic Regression, Random Forest) to predict student outcomes.
- Applied data preprocessing — missing value imputation, encoding, and feature scaling.
- Compared 4+ ML algorithms; achieved best accuracy of ~85% with Random Forest.
- Performed feature importance analysis to identify key academic performance drivers.
- Visualized insights in Power BI dashboards to enable data-driven academic interventions.

EDUCATION

B.Tech — Computer Science & Engineering, Dhanalakshmi Srinivasan University, Samayapuram 2022 – 2026

CGPA: 7.0 / 10

Secondary School of Education (10th) — Sree Swami Narayan Gurukul International School 2019 – 2020

Board: Central Board of Secondary Education (CBSE) | Percentage: 70%

CERTIFICATIONS

- Data Analytics Job Simulation — Deloitte Australia (via Forage), Aug 2026
- Cloud Computing Fundamentals — IBM
